

# Project Proposal: Muslim Minority in Canada

I came to Canada in June, 2000 under IEA fellowship which is one of the Environmental Research Organization. I was a journalist as well regular reporter on our media field Dhaka. On my research field "GEO POLITICS OF NORTH AMERICA," during 2007 to 2008 I have found few Historical books on Toronto Public Library; than I was rethinking about Muslim Migration people's history in Canada. Finally I found lots of information about this subject. All Muslim Community Leaders, Masjid Imam & Professional people who came to Canada early 1950 to 1960s most of them are become residential members of ALAM E BURGAK (Graveyard). So it is my humble request to all of Canadian Muslim Community Leaders is that before we leave this Earth, we should write our own Muslim community's historical point of view in Canada. On this basis, I saw and observed so many events & issues in Canada in my past 20 years. Historically Muslim & Islam in the Canadian society is almost less than 200 years old. It has been a great opportunity for me to observe & learn so many experiences as to how the Muslim Community is growing here in Canada since 1950 to 2020.

I would like to research this Muslim Minority, highlighting the historical events of the enslaved African Muslim roots background and as of modern new Muslim Immigrants wave from different Chapters. This book attempts to cover the histories from 1854-2020. We are delighted to know that our Young Caravan research associate team has decided to undertake a challenging task of discovering the hidden heritage of the African Muslims in North America as well today new Modern Muslim professional Immigrants people's history.

The Muslim World will greatly benefit from such research intended to help the intricacies of the issues of the differential Muslim ethnic cultures of insurmountable geographical settlement in Canada and the wider path way to America. As an educational tool, this book will be a well - intended research will help both the students and the educators to comprehend and appreciate the differential cultural but rooted values of Islamic religious identity. This project will be a book with minimum of 280 to 320 pages. Some major Chapter are mentioned below in brief:
